Re: Request for information about water conservation recognition/awards programs

Dear Contact Person:

The Water Conservation Advisory Council (Council) was created by the 80th Texas Legislature by passage of House Bill 4 and Senate Bill 3. One of the legislative charges to the Council is to develop and implement a statewide public recognition program for water conservation. Members of the Council are aware that many associations, organizations, individual utilities, and local political subdivisions already have public recognition programs for water conservation activities. In order to better understand what is already in place and then how these programs could be utilized in a state level recognition program, the Council requests input on what programs are conducted by you and by your members.

Deleted: for the Council

Enclosed is a survey form that we would appreciate if you would forward to your membership and also to complete and return if you have a water conservation recognition program of your own. You will notice that staff of the Texas Water Development Board serve as support staff for the Council. If you have questions about this request or the survey form, please contact Ms. Vanessa Escobar by telephone at (512) 463-1667, or by e-mail at Vanessa.Escobar@twdb.state.tx.us

I appreciate your consideration in assisting the members of the Council in our work on this charge from the Texas Legislature.

Respectfully,

C. E. Williams
Presiding Officer
Water Conservation Advisory Council
