

EXPLANATION

- 635
Well used for control
Number indicates altitude of water level in the lower Trinity aquifer, Spring 1978, in feet above mean sea level
- 500—
Line showing approximate altitude of water level in the lower Trinity aquifer
Dashed where control is absent or limited
Interval 50 feet
Datum is mean sea level
- Outcrop of the lower Trinity aquifer
- — — — —
Fault
U, upthrown side; D, downthrown side
Dashed where approximately located
- This area not contoured due to complex faulting and lack of control
- ▲▲▲▲▲
Approximate down-dip limit of fresh to slightly saline water in the lower Trinity aquifer

0 2 4 6 8 Miles
0 2 4 6 8 Kilometers

Base map from general highway map of the Texas Department of Highways and Public Transportation

Geology adopted from:
Unpublished geologic map of the Cretaceous of western Travis County, 1970, by F.E. Loza, Shell Development Company
